Southern Utah's Premier Optical and Contact Lens Center

¹**Brilliant Futures™ Myopia Management Program Agreement**

Welcome to the Brilliant Futures Myopia Management Program
Offered By Southern Utah Eye Care

1. Introduction:

*MiSight 1 day® contact lens is the only FDA approved² soft contact lens indicated to slow the progression of myopia (nearsightedness) in children, aged 8-12 at the initiation of treatment. Slowing of myopia progression is expected but not guaranteed. We are excited to journey together with your family in this program now and into the future. We are committed to be available along this journey and we ask for your commitment to the visit schedule and lens wear expectations.

2. Wear Time

The children in the clinical trial were asked to wear their lenses ≥ 10 hours per day and ≥ 6 days per week. Most enjoyed wearing their lenses 11 to 14 hours per day.^{1,2}

3. Lens Wear – Application and Removal

To optimize a successful wearing experience, please review and follow the application and removal instructions provided separately.

If at any time during the program your child experiences eye pain, discomfort, and/or redness, your child should remove the lenses immediately and you should contact our practice to speak with your doctor (or if the office is closed, contact our after-hours phone number at 435-673-3201)

4. Follow-Up Visits

This is an expected visit schedule to monitor your child's progression. Your doctor will determine the most appropriate interval and number of visits, all included in the program.

Year 1	Year 2+
Comprehensive Eye Exam	Comprehensive Eye Exam
Myopia Consultation	-

¹ The Brilliant Futures™ trademark and MiSight® 1 day copyright are owned by CooperVision, Inc.

² Indications for use: MiSight® 1 day (omafilcon A) soft (hydrophilic) contact lenses for daily wear are indicated for the correction of myopic ametropia and for slowing the progression of myopia in children with non-diseased eyes, who at the initiation of treatment are 8-12 years of age and have a refraction of -0.75 to -4.00 diopters (spherical equivalent) with ≤ 0.75 diopters of astigmatism. The lens is to be discarded after each removal.

Contact Lens Training	
1 week	-
1 month	-
6 months	6 months

If you have a vision plan (VSP, EyeMed, Opticare, Spectera) that contributes toward the purchase of contact lenses, this amount can be credited to the total balance due before applying any discounts.

If your child should discontinue the program within the first 60 days, 50% will be refunded to you. After 60 days, there are no refunds.

****Note-** You do have the option to apply \$ to other myopia management treatments we offer such as Ortho-K overnight lenses**

6. What's included: MiSight App, 12 month supply of lenses, free shipping of contact lenses, exchanges and returns for any power changes whether boxes are opened or unopened, parent/child starter kit, all visits related to myopia.

Diagnosis and treatment of any eye infection, corneal abrasions, or other eye conditions other than myopia are not part of the Brilliant Futures Myopia Management Program and are therefore subject to additional expenses and, if applicable, your medical insurance co-pays and deductibles.
